

Keystone**KeyOrtho Model®**

Made with a focus on accuracy, low shrinkage and high speed, this material is tailor-made for those who demand excellence in their prints. Ideal for the rapid production of thermoforming aligners and orthodontic devices.

Features

- Accurate
- Low shrinkage
- High-speed
- Withstands thermoforming temperatures
- Perfect for making aligners

Applications

- High-speed and accurate prints
- Rapid production of orthodontic models

Ultimate Tensile Strength

51 MPa

Tensile Modulus

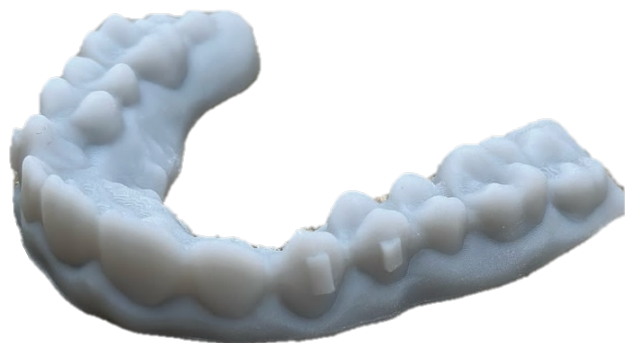

1850 MPa

Elongation at Break

5.6 %

Shore Hardness

86 D
